Built with safety

Areas of application

ertex magnetic is a magnetic pinboard and at the same time an easily and repeatedly cleanable surface for drawings and writing. The wall panel can be freely-designed and provides all advantages that safety glass has to offer – for all areas ranging from your workplace, via commercial spaces, up to private residential areas.

Benefits

Three round permanent magnets from **magnet.works** (www.magnetnetworks.at) are included in the delivery of each panel. The glass panel doesn't rely on technology and can be used around the clock for your own personal touch and style.
